SUMMARY

Computer Science Undergraduate with hands-on experience building full-stack development and backend systems. Passionate about creating practical, user-focused solutions and actively exploring areas like automation, machine learning, and AI integration. Continuously developing skills across modern frameworks and technologies through personal and academic projects.

EDUCATION

- **School of Computing | Informatics Institute of Technology (2024 - present)**
BSc (Hons) in Computer Science
 - **Bandaranayake College, Gampaha (2022 - 2024)**
G.C.E Advanced Level
 - **Gurukula College, Kelaniya (2020 - 2021)**
G.C.E Ordinary Level
-

PROJECTS

CrackCode – Gamified Programming Learning Platform

Informatics Institute of Technology | Sep 2025 –March 2025

- Acted as the Front-End Lead, driving the development and overall UI of the project.
- Contributed across full stack including front-end, back-end, UI/UX design, and dataset preparation.
- Developed an AI-integrated algorithm that transforms plain questions into structured narrative outputs.
- Managed end-to-end creative operations, including marketing content, promotional visuals, video editing, and SEO strategy.
- **Technology Stack:** React.js, JavaScript, Tailwind CSS, MongoDB, Docker, Digital Ocean, Figma

Website: <https://crackcodehq.com/>

Customer Management System

April 2026 – Present

- Full-stack web application for managing the complete customer lifecycle, including creation, updates, and detailed profile viewing.
- Supports bulk customer data import via Excel, enabling efficient handling of large datasets.
- Allows management of multiple phone numbers, addresses, and family relationships per customer.
- Designed with a structured backend and responsive frontend to ensure scalability and smooth user experience.
- **Technology Stack:** Spring Boot, React, MariaDB

Job Application Tracker

Jan 2026 – May 2026

- Developed a full-stack web application to track and manage job applications across different stages of the hiring process.
- Implemented seamless **drag-and-drop** style ordering so applications can be moved up/down within the same stage and across different stages, enabling a flexible kanban-like workflow.
- Designed a clean responsive UI with reusable components to quickly add/edit applications, capture key details (company, role, links, notes) with minimal friction.
- Implemented secure email/password authentication with session management using Better Auth, applying best practices for protected routes and user data isolation.
- **Technology Stack:** Next.js, TypeScript, Tailwind CSS, MongoDB, Better Auth

Live Demo: <https://job-application-tracker-chi-opal.vercel.app/>

SKILLS

- **Soft skills** – Time Management, Communication, Adaptability, Teamwork
 - **Technical skills** –
Front-end: JavaScript, TypeScript, React, Next.js, TailwindCSS, HTML5, CSS
Back-end: Node.js, Express.js, Java, Springboot, JAX-RS, PHP
Database: MySQL, MongoDB, PostgreSQL
Version Control: GitHub
Tools & Other: Figma, Canva, Postman, Vercel, Docker, Adobe Suite, Neon
Software Development Concepts: OOP, Agile, REST API
-

ACHIEVEMENTS

- Selected to the final round – AdaptiQ 2025 | IIT
 - Microsoft Azure AI Essentials (*July 2025*)
 - MongoDB Bootcamp (*May 2025*)
 - Python for Beginner – University of Moratuwa (*May 2024*)
 - Web Design for Beginner – University of Moratuwa (*May 2024*)
-

EXTRACURRICULAR ACTIVITIES

- Volunteered for secretarial team for *commit.dev v3* | Computer Society, IIT.
 - Participated for IEEEExtreme 16.0.
 - Participated for CodeRally 6.0.
-

REFEREES

Mr. K. L. P. P. Liyanaarachchi

Lecturer,
School of Computing,
Informatics Institute of Technology,
Colombo.
Tel: (+64) 76 1460860
Email: prasad.l@iit.ac.lk

Mr. A. E. Samaraweera

Senior Data Processing Operator, Paragon Software Lanka
(pvt) Ltd, 106 S De S Jayasinghe Mawatha, 5th Floor,
Kohulwala.
Tel: (+64) 11 2826075
Email: Amila@paragonsoft@net
